# Yash Deshpande

+91 9004654411 | hello@yashd.in | yashd.in | github.com/yashd-dev

## Technical Skills

**Frontend:** Next.js, React, TypeScript, Tailwind CSS, Astro, HTML, CSS, Figma
**Backend:** Node.js, Express, Flask, PostgreSQL, MySQL, GraphQL, Prisma, Drizzle ORM
**Cloud & DevOps:** AWS, Docker, Linux, Nginx, Cloudflare, GitHub Actions, Railway, Vercel
**ML / Data:** Python, CNNs, NumPy, Pandas, Streamlit, OpenCV
**Tools:** Git, Postman, Sanity CMS, Firebase, Supabase

## Experience

**Technical Lead** Dec. 2025 – Aug. 2026
*Actually Fair*

- Led the end-to-end product design of the headless e-commerce platform, defining user journeys, information architecture, and a scalable design system across the customer experience
- Designed storefronts, checkout flows, account experiences, and transactional email templates while working closely with stakeholders to translate business goals into intuitive interfaces
- Architected and developed 6+ production microservices powering authentication, orders, customer engagement, notifications, and operational workflows using a headless Shopify architecture
- Rebuilt traditional Shopify functionality through custom backend services, APIs, and automations, enabling greater flexibility, performance, and customer retention than native Shopify extensions

**Full Stack Intern** Mar. 2025 – Apr. 2025
*KonectU* *Remote*

- Developed internal tools to streamline study-abroad operations across frontend and backend systems
- Built and deployed a full-stack study-abroad platform featuring authentication, payments, and AWS infrastructure
- Designed RESTful APIs and database schemas supporting scalable application workflows
- Created 8+ high-fidelity product wireframes in Figma, collaborating directly with stakeholders to shape the product experience

## Projects

**ADEON** | Node.js, Express, AWS, AI, Next.js May 2025

- Designed the complete UI/UX, defining user flows, interaction patterns, and visual hierarchy across core features
- Implemented the frontend in close collaboration with backend and AI engineers
- Conducted frontend and backend code reviews to maintain architectural consistency
- Collaborated with backend engineers to design API contracts and AI-powered workflows

## My Clients

**Therapy With Kinnari**, **Medizone Aesthetics**, **Strive Consultancy**

- Designed and developed landing pages for all three client websites
- Implemented CMS functionality to allow clients to manage and update website content
- Improved SEO performance through technical and on-page SEO optimizations

## Education

**Mukesh Patel School of Technology Management and Engineering** Mumbai, India
*Bachelor of Technology in Computer Engineering* *2022 – 2028*
